

THE LIMIT	OPERATIONAL DEFAULT	CONTROLS THIS SATISFIES
Iced water 0°C and boiling 100°C, both within ± 1°C	The Pass's own working rule, drawn from UK kitchen practice. No regulatory claim.	CK.3

How to fill it in. This is the sheet that makes all the others true. A probe reading three degrees warm turns a month of honest records into fiction, and nobody can tell by looking.

[illegible]
